

**Breaking new ground.
Developing intelligent
solutions.**

Together, we work on the
measurement and testing
technology of the future.

Gantner Instruments is a leader in industrial measurement technology with locations in Austria, Germany, France, Sweden, the USA, Singapore, Hong Kong, China, and India.

To support our international team in Schruns, Austria, we are looking for a

Electronic/Electrical Technician (m/w/x)

At Gantner Instruments, we pride ourselves on designing cutting-edge products that acquire data at high speed and the highest quality from a wide range of sensors. Our products are vital in helping industries worldwide make informed decisions based on real-time data.

We seek individuals who share our passion for technology and possess a reliable and high-quality work style. Gantner Instruments is the right company if you're excited about working with innovative products and learning about new technologies.

If you're someone who prides themselves on their reliability and high-quality work style and enjoys working with the latest technologies, then we'd love to have you on board. At Gantner Instruments, you'll be part of a team dedicated to pushing the boundaries of industrial measurement technology.

Your qualifications:

- Completed training or technical training as an electronics technician or in a related field
- Knowledge of electronic or electrotechnical circuit diagrams
- Structured way of working
- Strong ability to work independently and as part of a team
- Knowledge of German and English is an advantage

What to expect:

- Thorough training by your team colleagues
- Production, configuration, and testing of our data acquisition systems for various industries
- Carrying out tests and error analysis
- Collaboration with a supportive and motivated team
- Pleasant and safe working environment
- Fair, performance-oriented pay with flexible working hours
- Exciting projects and applications

Your application

If you possess these qualifications and want to join a company at the forefront of industrial measurement technology, we encourage you to apply now.
